¹North American Industry Classification System, 2012.

²GGS employment is the number of jobs related to the production of Green Goods and Services. This table reflects private ownership only.

³GGS percent is the percentage of the GGS employment compared to the total employment. This value is derived by dividing the GGS employment by the total employment.

⁴Source: Quarterly Census of Employment and Wages (QCEW) 2010 annual average.

⁵Industries may not add to total because of unclassified employment in the QCEW. The unclassified NAICS sector is not shown separately, but it is included in the total.

⁶GGS percentage change is the change of GGS percent due to revisions. This value is derived by subtracting the unrevised GGS percent from the revised GGS percent.

⁷Data do not meet BLS disclosure standards.

⁸Estimate cannot be created due to the conversion from NAICS 2007 to NAICS 2012.

⁹The 2012 NAICS conversion changed the GGS scope for this industry. BLS utilized backcasting to make the 2010 and 2011 estimates comparable. See the extended technical note for more detail.

NOTE: GGS data for 2010 have been revised to incorporate methodological changes explained in the Technical Note. Please also note data may not add to total or subtotal due to rounding.
